

Resolution means a firm decision to do or not do something, the act of solving a problem, or the level of detail in a digital image.

### Common Meanings

- **Goal or Promise:** A serious personal choice to change behavior, such as a New Year's resolution (e.g., a promise to exercise more).
- **Problem Solving:** The act of finding an answer or fixing a dispute, conflict, or difficult situation.
- **Official Vote:** A formal statement of opinion or a decision passed by a group, government body, or committee.

### Technical Meanings

- **Digital Screens and Photos:** The number of tiny dots or pixels used to make up an image. More pixels mean a sharper, clearer picture (such as 1080p or 4K).
- **Music:** The move from a tense, uneasy chord to a smooth, pleasant one.
- **Storytelling:** The final part of a story where the main problem is fixed and the plot comes to an end.
